

HOUSTON HAS SPACE.

We just can't find it.

SpacesHOU turns scattered meeting-space information into a clear, source-backed first search for the people making Houston happen.

Make room
for Houston

THE FRICTION IS FAMILIAR

A dozen tabs is not a space strategy.

Grassroots organizers, educators, small businesses, and nonprofits are solving the same search from scratch.

01

Scattered information

Useful rooms live across organization sites, PDFs, request forms, and word of mouth.

02

Low-budget decisions

Capacity, cost signals, access notes, and amenities matter before someone can make a plan.

03

Underused local assets

Good rooms can sit empty simply because the people who need them cannot find the right page.

THE PROTOTYPE

“Houston has space — we just can’t find it.”

Challenge 02 — original brief

SpacesHOU starts with discovery: browse a Houston map, scan a practical list, and open the source-backed detail.

THE USEFUL LOOP

From vague need to shareable shortlist.

Each step reduces the amount of translation an organizer has to do alone.

01

Search

Find by space, neighborhood, or address.

"northside"

02

Filter

Use capacity, cost signals, and amenities.

Free • up to 60 • Wi-Fi

03

Compare

See eligibility, cost notes, and provenance.

Official source •
checked Sep 2026

04

Share

Shortlist a place and send a canonical detail link.

spaceshou.sasid.ai/#/space/...

PROGRESS · PRACTICAL · POTENTIAL

A small surface with a credible path forward.

PROGRESS

Working today

10 source-backed spaces across real Houston organizations, with map/list discovery, filters, shortlist, and shareable details.

PRACTICAL

Honest next step

Start with the source link and confirm current availability, cost, eligibility, and fit with the host.

POTENTIAL

Grow with review

Invite owners to submit leads, then expand coverage through a lightweight reviewer loop.

No invented availability. No booking claim. Just a better first search.

CHALLENGE 02 · SPACES FOR HOU

Make room for Houston.

Open the live prototype, watch the narrated walkthrough, and help us decide which neighborhoods and space owners to bring in next.
